THE PAY OF SENATORS.

Nearly All Are In Favor of Doubling Their Safaries.

WRY SENATOR CHACE RESIGNED

Corporal Tanner For Commissioner of Pensions-Other Presidential Appointees-The Ex President and His Cabrnet Start for Cuba-

WARHINGTON MARCH 17 the resignation of benator Chace upon the litreshold of his second term has aroused renewed interest in a subject that is bound to receive carly and second term has aroused renewed interest in a subject that is bound to receive unity and carnest consideration in congress. Behavior chack in private gives as the residual with the near no longer serve as a legislation that the compensation of a senator is not sufficient to warrant him in longer neglecting his business. Helens explores the opin ion that he is considerably poorer for his legislative experience. He is one of the largest cotton mainfacturers in New I ngland. The question of increasing the compensation of congression has been receiving earnest atto itoo he senators explenally of late and there appears to be an overwhelm ing sentiment among them in favor of making the sulary of congres men \$10,900 a year first and of \$3500 as at present.

Members of the house of representatives while thoroughly in symp thy with the seriors on this point, are not better distinction of the outbreak of increased switch of the child length devired by them for ring a repetition of the outbreak of increased switch upon the congress of 1873 for its action of the satirat question.

But it is argued by the advocates of increased salary that what the peop e were in dignant about them was the fonck pay grainfeature and that if the increase were mideled and for the season of the secret eighthing ses tons in a discussion that ensued on the introduction of a resolution by senator felter authorizing the secretary of the senate to pay committee clerks acrying on a per diem may has a during the secretary of the residuaring the secretary of the pay committee clerks acrying the secretary of the senate and

legislative ses tons in a discussion that enused on the introduction of a resolution by
sensior Feller authorizing the accretary of
the senate to pay committee clerks
arving on a per diem hillowed by law
during the session of the senate and
dierks to the session of the senate and
dierks to the session of the senate and
clerks to the session of the senate and
clerks to the session of the senate and
clerks to the senators during the
coming recess the per diem kilowed by law
Teller, previous to presenting the resolution,
which was referred to the committee on conintegent expenses, sid, in his, experience as
the charmen of a committee, he had been
compelled at times to employ two men to atend to the correspondence dievo ving upon
him and it was a heavy burden upon him
He believed the senators should have annual
clerks, because their dities did not cease
with the adjournment of the sonate

Dales, Stewart Harris and Gra. endorsed
the sentiments expressed by Teller but Morrill Morgan and Hale sand it would be impossible to provide a clerk for every senator
this year nyumuch as the appropriator's
had all been made and in any cybit the cooperation of the bouse would be cessential in
carrying out the proposition

In the conclusion of the debate Platt said
"Mr President, when the proper committee
shall consider the matters which have been
spoken of here this morning. I think the
committee ought to go further. I think it
cought to consider the matters which have been
spoken of here this morning. I think the
committee ought to go further. I think it
cought to consider the matters which have been

spoken of here this morning. I th

fluence it is acres upon the mind clouding the memory and filling the head with yaims and strange noises! How defficult it is to rid the mean presages, throat and lungs of this poisonous nunci, all can testify who are afficted with catarth. How difficult to protect the system against its further progress towards the lungs, liver and clineys all physicians will admit. It is a territin disease, subjects out for realized and some

CORPOBAL TANNER

Rumor That the President Will Appoint Him for Personal Reasons Him for Personal Reasons

Washington March 17—There now seen a
to be no doubt that the p esigent has de
cided upon the nomination of Corporal fanner to be commissioner of sensions. It is
suid that the reasons for this are more pesonal than political and that Tinner will
not be accredited to New York which is his
state. The difficulty lies in the fact in I
New York presents two candidates the other
of whom. General Theodor Poole of Nyra
cuse—has by far the strongest backing from
that state. He has been supported by marry
all of the congressional deligation includsing Senator Hiscock Vice President Morton all of the congressional deligation including benator Hiscock Vice President Morton and ax Senitor Platt bendes being indorsed indirectominended by the administrative council of the Grand Army of the state of New York Rumor is that the president, realizing the weight of the backing of the other candidate, will appoint Tanner and accredit him to some other state, Oregon and Nebraska being mentioned as willing to give him residence.

The Situation in Paris Dominates—The London Exchange—The Copper Ir set

The Situation in Paris Dominates—The London Exchange—The Capper Fr 1st

London March 17—The Paris situation dominates in the money market here. Exters which otherwise were expected to ease off by government accumulations, hardened during the week. Banks and discount houses were very cautious. On the stock exchange there was a general depression which is likely to continue until the Paris Bourse settlement at the end of the month discloses the state of the French speculative account. Puris advices report an increasing floomy tone financially and politically. The Fren sist vis English from will not attempt to resuscentia the French speculative account will not attempt to resuscentiate the French copper syndicate but will ende syor to dieta abarranomes, working of the Spanish and American mines and in duce them to abundon the court ets with the Societ des Metaux and the gruentees of the hard disaster to the copper undue from the Coupling des Compte the inforcation of which would result in the wrecking of both and disaster to the copper undue from the content of which would result in the wrecking of both and disaster to the copper undue from the town of the competition of 1877. Precess will set the output and sale at devoid the revisit of the competition of 1877. Precess will set the foreid up White copper will not be pred the promotors of the schum to selither stack in a manner that will ayout a colline street.

A LOAN PILOU THE BANK OF FRANCE Paris March 17. At a meeting of the di-rectors of the Bank of France it was decided to rhake an additional advance of 20,000,000 francs on count on that a similar sum be subscribed elsewhere in order to avert judi-cial liquidation of Comptoir des Compte's af fairs. I of day he occupied the pulpit of Rey Stofford Brooke which has never be fore been filled by an itlinerant Lyman. Paul Du challi blooke down while revising the proofs of his great work. The Viking Age" and lett vestered is for Tai zier to recuper ite. Du Chalifu told a correspondent he would not touch the work while away and would probably postpone its gubination ill September of American society in London suffers a loss by the sudden death Friday of Lady Arnold, wife of bir Edwin Arnold, author of The Light of Asia. She was a daughter of Ref. W. Channing, of Boston, who sets in the house of commons for the division of North amplements and a great niece of Win E. Channing Lady Arnold was always very kind to Americans who wanted to get a glimpse of the hig gims of literary I ondon

SERVIA'S NEW KING

\*Imposing Ceremonies in Honor of His Accession to the Ahrons

Beford March 17—An imposing service was held in the cathedrat to-day in honor of the accession of King Alexander. The King, ex king regents cabinet immisters and all diplomatic representatives were present The city was decorated with flags and the celebration closed with an illumination and torch light procession. In the course of the day the officials were received in a farewell audience by ex King Milan

Thought Alexand Britain Correspondences says Members of the Prusique in perial family here subscribed the cost of a present of several thousand repeating rides and a quantity of animuminon to the prime of Montengero. They are supposed to be in tended for use against beryla in tayor of Prince karageogevich.

LAIFST FROM HAY1I I welve of Legitime's Soldiers Shot in the

Twolve of Legitime's Soldiers Shot in the Unbile Square at Cape Haytion.

New York March 17—The steamer Caroline Miller arrived last night with news from Cape Haytion. Oapialm Miller sand twelve of Legitime's soldiers who had been taken prisoners by Hyppolite were shot in the public square at Cape Haytien the day before the steamer left. Sympathizers with Legitime had endeavored to get the mon released much Jyppolite his decembed the mon released much Jyppolite his decembed its institute of miny of his others. He therefore had then 1 at to death. Capiam Miller said Cape Haytien was filled with Legitime spites. According to one of the officers, the steamer Fransport was permanently engaged carrying arms and other implements of war from Monte Christia to Cue Haytien for the use of Haypolite's men. The United States steamer Cadama was suchored at Cape Haytien when the Miller left.

BOULTNOTER GOAL

He Would Have a Non-Parlimentary Republic, Respecting I iberty.

Louis March 17—General Boulanger at a banquet this evening rejudiated on behalf of the authoral party the idea of either a monarchical conspiracy or demogogic wild declaring that the goat toward which they were marching was a non-parlimentary republic which would be the protectives of the west and lowly, and by pre-couping with the interests of the people respecting the liberty of the individual and above all liberty of conscience.

A CHASE FOR TASCOTT.

PRICE FIVE CENTS.

Stone Returns to Chicago After a Fruitless Search.

THE CRIMINAL'S DOUBLE FOUND.

He Looks Like the Fugitive Writes Like Him and Lead the Officers a Chase of Several Thousand Miles

Chicago March IT. The chase for Tascott has ended in failure. A J Stone son in-law of the functive stip powed victim, Millionaire Shell returned empty handed to Chicago list inght after traitless pourney of several thousand miles before was accompanied by Detective. McDona'd and Williams. Foilowing actus which took them to the Chischan Northwest the pursuit led to the Pacific cooset. There a capture was made, but the pri oner like so many others before proved to be the wrong in a.

Mr. Stone estimates the length of his trip at MRS miles. He tilked quite freely but remarked with significance. It must be understood that I choose to reserve names for various reasons some bearing upon the inture. About a month ago, said Stone. If re-

cerved from a law him in Minneapo'rs a letter stating thet had a client, a resident of Win inpeg, who had some authoritativa information as to what he believed was a Tavott's whereabouts. My inquiry following showed the suspect's description talliad more closely with that of Tascott than any I had yet seen. The young man was said to be employed in a tening camp near Rat Portage 220 milks east of Winnipeg. I left chicago with four others and three weaks igo to night we wind to Minneapolis thence to Winnipeg and thence to the theory camp. We arrived there to discover that the young man such as described hid worked there that the week before. He had some time prior received a postal cara from a friend a young man in Southern Californya. The contractor had held back the card for two or three weeks until the young min left at once. We then hore down upon Rit Fortage only to learn that they had moved to Winnipeg, saying that the first young fellows had cone to another the camp where we again arrived, to learn that they had moved to Winnipeg, saying that the first young fellow's father in Southern California was dying, and thay would hasten to list bedside.

"Now we had obtained some of the many writing in the first lieing camp and it was Tacott's own hand in fac simile. We hurrled to Winnipeg in the first lieing camp and it was Tacott's own hand in fac simile. We hurrled to Winnipeg in the first lieing camp and it was Tacott sown hand in fac simile. We hurrled to Winnipeg in the first lieing camp and it was Tacott sown hand in fac simile. We hurrled to Winnipeg in the first lieing camp and it was Tacott sown hand in fac simile. We hurrled to Winnipeg in the first lieing camp and it was the contract of the many wind has a contract the American line. Thence we pursued it hot to Vancoutland the track ran to Son Francisco and here the twan had separated.

Our man' continued Mr. Slone 'went to Portland by rail and his companion to prothone the track ran to Son Francisco and we reached it a week late. It seemed ortland the

WANTS HIS PENSION INCREASED.

An Fx-Soldier in Texas Writes a Letter to Chauncey M. Dopew.

New York March 17—Chauncey M. Depew has received a letter from an old soldier in Austin Texas which reads:

I see you are interesting yourself in that Texas home for ext confederate veterans. That s all right and I am with the scheme, those poor fellows need help and we wounded ex soldiers know how hard it is to get along without some assistance I m glad you are helping the home, but can't you find line also to give nice a little int toward having my pension increased? I me rated at \$12 per month, with rheunalists scantia and dichetes I wish you would help me get classified for really serious troubles.

I wonder what that man would call a serious malady said Dopon after reading the letter

WHITE VS BLACK.

A Brooklyn Divine is Refused Admission to a Bischmond Church.

It BYONN 14 Morch 17 - Rev Justin D. Inition of Brooklyn N. Y. Friday night addressed an audience in the first Africat Biplist church Among other Lings he said. Let the black man go to work and make money and they he will be recognized. Let the black man have money, said he "and he can buy railroads in Georgia and other states where a negro is not allowed equal privileges with the white man and then the former can say to the latter "Now if you don't behave yourself, I will at you off my train."

In concluding he announced he would preach at the First Bapust church (white) last hight by hivition. The deacons of that church mot after reading the doctor's remail's and unammously decided the thurch would not be open to him to day.

USED A SASH FOR A HANG ROPE

USED A SASH FOR A HANG ROPE.

A Chinaman Named Wong Wab, is Found in H a Room Hung to a Step Ladder

Ha Room Hung to a Step Linder

About 10 lock this morn up the co an ; was notif d hat a harma lab a mailed suicide be hanging himself a root at No les second steet 1 twe n 1 smbill and 1 lor. He at once replied to the seen, and when he arrived at the jine he case con in ted through a long marrived to the sea on the did rough a long marrived may be a fault 1 hanging to a step hadder that was lean in against one of the walls.

I room a small and dust begrimed and destine of eld furniture except a large mooden cot cover i with a blanked namalistand, seas boxes, and the ladder which served as a scaffold. The chimman had evidently committed the set with great deductation. He shows he had been seminated and a long green sash was used for some more and a long green sash was used for some more point, two unds were fastened to the top of the index and the (into man hung with bis head from the long this shang and his back to the ledder.

As the body was still warm the widele, bad evidently been committed that a short turn before its was iscored. dentify been committed but a short time before the man legace of minimum who discovered the body man herover. It is also that the body and notherd the colour street that the name of the discover its wong wan the is about to years of age, and has been done nothing the list. But manihe—the length of the list has peculial the manihe—the length of the body has peculially the body which has peculial the room Yaco Wall is said to be fire count. Surell other Chinamen, who stee they say that thought that he took has lift in all of desponding by the coroner and has but in the other we challed in the coroner and has been all the fire of the conditions and the manifest of the for the coroner and has been all the best of the best of the coroner and has been declared to to the cut and an inquest will probably be held this alternoon at 20 clock.

march Dakotu, says Up to the present
time Curran, the man whose sentence for ume Curran, the man whose sentence for complicity in opium sausgaing was suspended, has made no confession, as was expected. If he has, the detectives are the only ones who are aware of the facts Enough is known to warrant the employment of uarge force of detectives, several of whom are now in Canada in the bopes of capturing the members of the gang who are operating on the Canadan side. It is said several wealthy citizens of bair Francisco will be involved when the faul expose is made. when the kurd expose is made, and that the smuggling combination will prove one of the atrongest will prove one of the strongest in the country Curran and his wife have departed estematoly for their home near Humor in office of the country of the is to the cheef the they are en route to Can as to the creek that they are en route to can ad a to meet the detectives and ad in the ar-rest of the "mughler: The officers are dumb and refuss to impart my information but it is well known they are on the alert for proof which all lead to the capture of wealthy member of the gang

### LIEUTI NANT FRED SCHWATKA

Having Tried the Frigid Temperature of the North, he Will Take the Other the orth, he will take the Other the orth, he will take the Other Extreme.

E.E. Paso Texas - March 17—L entenant Frederick Schwirks the Arche explorer, is hard at wors on surveys for the Mexican Preale rold to run from Deming and Lis I alomas to Guaymas a distance of about twelve hundred miles. It will pass through the Ember belts and mining campa of the herra Madrey, and will open up a country unex celled in richness! After the survey is completed, Liout Schwitka will probably go to the new railroid projected from Ensenada Lower California to Yuma Ti senterprise has recently been greatly stimulated by the new gold discoveries in the peniacula. Part of the line for fifty indes couth of Yuma passes through the great Coorado desert said to have the hottest chinate on earth. Thus Lieutenant Schwikka after a long arche experience enduring often 60 degrees below were well new next summer in the other experience. perience enduring often 60 degrees below zero, will pass next summer in the other ex-treme the average temperature being 110 degrees during the day

### B. FCHFE S .. BOSCORET".

The Magnificent bummer Palace on the Hudson Sol i. The Magnificent humaner Falace on the Hudson Soil.

New York, March 17—C. H. Butler of this city has bought for \$75,000 Boscobel, the country retreet of the late Henry Word Beecher at Iee.sakil. Thirty years ago, when Beecher first bought the ground, it was a patch of plain meadow land with an ordinary little cottage as a resulence. This he inhabited during the summer months for many vears and he became so attached to the little domict e that when the larger and more imposing residence was built he deemed it a duty to preserve the cottage as an old landmark. Speaking of it to a visitor not long before his death Beecher said. I love this house it is very pretty but do ou know how I built it? I want dit I had set my heart on it, but I was pour to I went and lectured until learned money. You have heard of eastles in the air. Here you find one a regular castle of wind. That 's how I got it.'

I has a strange story about the Cascade unnel. The bed of the railroad track in the unnel originally a hard clay substance, is welling up from the bottom, which is yeringy, ind is giving the railroad people onsiderable trouble. To overcome the difficulty the tunnel is to bearched at the top and bottom like a gigantic sewer. To this and the 4 orthern Pacific Company is said to have secured a very large track of clay land at Pas o where an extensive brick yard is to be established and 15 000 000 of brick made at once, to begin the work.

The fre ght business at the railroad wharf in this ci y has increased 25 per cent in the List three months. There have been no bluckades on the road this winter and this has been favorable for the heavy increase. There is a tremendous rush of business expected next nonth. Twenty five clerks are now on loyed at the wharf ugainst agheronal tay are reproduced by the contraction of the co

As an illustration of the many newspaper changes in the Puget sound country it is as serted that there is not a man working on any of the daily payers of facoma or beattle to day who was employed on them one year ngo

The people of Tacoma are complaining bit terly of mind the want of rapid transit, and the postoffice. I saw a lady on Pacine are minest lashed from head to foot yesterday by a passing toant and a gentleman who was going along tenth street near A to the post of the received a shower of liquid soff from the same course that changed the appear ance of his sait of clothes very materially the streets have been in this disgraceful condition for several months. Some of them are blocked a peompletely with moving buildings. The jostoffice is managed much worke than a county cross roads office because there you can diget your mail if the stage conclusions at a first the trun is late. Here the post mater juts up a eard. No mind distributed to-uight the trun is late, and the crowds that have besteged the office for letters ponched to the first and the trun was a little over an hour fact last night and no letters were given out. The iand trun was a little over an hour late last night and no letters were given out. The postum ter's force could have distribute t the mar and potten to their homes before 10 o'circk but the dear people were forced to wait till morning.

Mayor Gowey of Olympia, who was here

Mayor Gowey of Olympia, who was here hast eve uning any a but the cutients of the capital are soing to build a first class hotel and that \$20.000 has been raised already. Here have secured a beautiful site on Main street and expect to have the holel ready for guests when the constitutional convention meets on the Fourth of July.

### A SIGNIFICANT CONFESSION

The New York Som of the 11th in a man double leader editorial feeds out frozen truth in which is to the democratic party for begins by reciting the fact that when a urit lead was elected to find the party had an party of seventy three in the perturbation oner a That mijority was reduced at the next election to forty. I was reduced to the next election to forty a party with the state of the delived feast three first at was reduced to lefteen and provided the seventy three truths of the delived feast three first at trucks. ye is litter it was reduced to litteen and the bow it has no fire inch disappered but so leter he has little free trailede, each come that the republicans have seen et an 1 ray in both raises of force in the earlier of the press. from the court prise the first that it is the first

the description and the following that it is a state of the first the first that is a little of the first the first that is a little of the first that is a hose its out a term resente of the fitternal a revenue taxity was a conquitorial and orificial to our original terms of the fitternal and orificial terms of the fitternal and the fitternal to the country is imposed in 18th and the fitternal country in the fitternal event for a very fitternal event for the fitternal e majority is concrete to a titus Carlive's three terms as pe ker agon me in tanning, a face of the tried no sorthe party this interval revent a favation. The St. argue that they and und Carlisle argan and defeat for the dismostry by revering the pulses of the pits from a position in favor of a protective tire flow and admits in internal zerouse tax to a tortownly to a protection. live tariff and man or of the fernal revente Though disart cus, been in it below et-tion upon the freetride sale the democracy fought and disc as he fool dieth in the lat ditch of the session refusing with their dy in, breath to term the house to speak the totacco tax though it was demaided by two-th rds of corgress and three-fourths of

The streetes these facts without mine ing their and declares that the logical cor-our of the facts a that the democracy needs and a peof ender hy unless it desires to have its diasters rejected and it contides its ; owerfu dictinent and appeal as

If there is any one fact while stands out clearly amount to relate a been wright first that the amerian people man to adhere to the protection and amount of said to sweep farm extinent the end cluternal revenue system. The one must stay and the other must go I is folly to dun that this purpose sixed in the American must and if the democrate party is ever to right power inner rejunction to the must go I is folly to dun that this purpose sixed in the sixe ever to right power inner rejunction to the clute in a mon with the manifest will of the masses.

The Sun er dently thinks that Samuel J Randali who wants tried to revoue some thing from the wreck of defeat is the only real statesman left in the democratic party while Carlisle Cleveland & Co are to the erally given the democracy excellent advice.
It warmed them of impending defeat when it

Jescribed General Handock as a good man weighing about 250 pounds," it has warn d the democracy over and over again that it was beer political insanity to assume that the patriotic memories of the great war for the I mon were dead. The Sim has over a id over again warned the democracy that a rev enue jointy siming at ultimate free trade would surely be repudiated by the North 11 has warned them that any kind of connecting

part are a power ess to influence the So d Sould sethe he d of Sh (Lapoure would be to botter lower estone will be its mere impact

THE BUILDING ON THE BANK

The defeat of the probabilion amendment order to be used as a heverage a milde memor. The provious to eder us made to catch the farmer vote. Every holy knows The credit on which it is transaction i based is the credit of il, will be people. It is not bused on wealth or properly but on the known enumd for vater and the great path of this den and comes from the poor A ix is not the bonds of the creation of this den and bonds there one is not a tax upon the bonds of the invitably one in the propel. The fonds der invitably one is time he diwits has means of doing so and there is no way to reach him. It is asserted ever and over again the the bonds of the city when issued to those who furnish the money become privile properly. But they are not such in the or dinary ease they are part of them ich nery needs that the law has been af dure. The epopenburk is their which is the former to the catch the farmer vote. Every lody knows that hard care is an intexacting drink of great potency and the catch the farmer vote been upon the farmer vote been sum intexacting drink of great potency and the catch the farmer vote been upon intexacting drink of great potency and the catch the farmer vote been upon the farmer vote been sum intexacting drink of great potency and the catch the properties of the probability in the farmer vote been sum intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the farmer vote been upon the hard catch the farmer vote been sum intexacting drink of great potency and the catch the farmer vote been sum intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency and the catch the same intexacting drink of great potency drungenrees. White New Hampshit. for thirty four veirs his had a promistion line the law has been af three. The open burits leen it pots about het but its place has been taken by the search ber, which is ar worse, because it is not exposed to criticism.

class' is but the jargon of stupid j hease mongers.

What was attempted in the case of the Portfard water bonds was strictly in according to many some and sound experience it was dictated otely by regard for jubic interest, and was entirely within the fetter of the constitution all power of the legislature. It was opposed only by demagog malevoletice and stupidity. As a principle to twoil lapply to every miningipalty country and school district in the state and to the state and to the constitutions of the constitution of

in spite of 11th, demogracy and foolest tent and of post ion to it never hid nor a model to the post ion to the very least to add to the public burdens by the civility theoret of the works which the people in their collective and privide experity much independent of descente. We do not trouble ourselves about points also provide the collective and privide constructions of the works which the people in their objects increased in a positive curve is the provide and provide a positive description. The number of Pactice Coast people in the contraction of the independent of the companies of the provide and positive description.

principle at 1 see will not be affected the matter what may be the result of the voting Persons of superficial observation and shallow thinking caught by were and a hallow thinking caught by were and a hallow than one of the area do not he popular a new series of milest pathelic. Bull Watkinds, Tony one of the area do not he popular a new series are so high as the milest pathelic. Noitner and a her war horses of the Ozegor Notiner and a her war horses of the Oregon democracy who were in Wishington four very ago upon a similar errand will doubt less et joy, the spectacle which the trayet of the repetacle which the trayet of the republican office seekers present as the verme in mass the effices to which they early jets the life tive that that great ery tes to the party et atted them. It is only those who don't want an office who can affort to lough at the political palgrams who will be and easy soon as the warking else. who will be her cus soon as the waking cla go i at itles are not numerous enough to make the peal of mer iment a very resound

Officials a the various land offices of the g n and W ishir ton Ferritory are carning the r a cries new by hard work. The ru h ter the outlying acres of the public domain The New York Sun of the 11th | 1 m n has never been o great in the history of the

SOLE ÁGENCY MME. DEMOREST'S RELIABLE PATTERNS

Priestley's Silk Warp Henriettas

Are the most thoroughly reliable goods in the market. They are made of the finest silk and best Australian wool. You can easily distinguish them by their softness and beauty and regularity of finish. They are always the same in quality, weight width and thade this enabling you to match any piece, and are died in two standards of black. Nong genuina unless rolled on the ' Farmshed Board," showing the grain of the wood, which is the Priestley

PRIESTLEY'S

**BLACK SILK WARP HENRIETTAS** 

Are always reliable. You will consult your own best interests when purchasing Black Silk Warp Goods to accept no other than Priestley's. You will always find them on our counters. Whatever is good is imitated. Beware of imitations.

Re-Dyed Black Henrietta Cloth.

There is one item which is very important to buyers of black goods. The popularity of the highest grade silk warp Henrietta cloths has been such that there have been some difficilty in supplying the demand for them - At the same time there has been very large invoices of colored silk warp. Henrietta cloths in all fashionable shades. Many of these latter especially those in light tints, have been found by merchants to be less salable than they hoped for and numbers of the less degrable shades have been left on their hands. In order to utilize this surplus stock, these goods have been sent to the dyers and died blue n. It is a well understood fact that such materials, when died in the wool, he much more likely to keep their color than those that are piece dyer. Purch isers, therefore, who desire durability as well as elegance should take particular pains to ascertain whether or not their fine fabries are re-dved shop-soiled goods or the genuine tiber dyed materials that will stand the test of time, exposure and har I sage

Buy Priestley's Goods and you are sure of an honest article every time.

### TENTINGTON COUNTY PARMING

The Parmers Institute receptly he a at This for alled out the practic info me too and experience of Washingto courts farmers and proved to be an occasion of much interested all who extended. Agreed ture deals with Nature so infiniately that its success depends greatly on a knowledge of Nature slaws. This mowledge or mes under the head of science because it on mot be acquired without tests and experiments that are beyond the reach of men in ordinary life. For this purpose the state at d national governicint provide agriculturil colleges and experiment stations to teach the great principles of nature and by practical tests make it vestigations of natural forces to determine how the bust results can be second plastical and production insured with reasonable economy of time and money

able economy of time and money
We higher country has a farming community that is progressive and practical.
There is more underdraining of farms there
kan any other country can show. The genthemen connected with agr en tittal colleges. recognized this as different speakers gave their experience and felt that the holding of in institute at Hillsborg was a good more be doubt other counties will bring out their best material and future institutes will grow in interest and value. It is not within the means of an agricultural college to cover all the ground necessars for thorough investigation of farming methods, because so much derends on soil and climate. Even with experiment stations in deferrint parts of the state there will be conditions beyond such investigation and the efforts and feste made by individual timers mult supplement the work of these stations. This can be secon plashed through the influence of these fairners institute, where all tonics can be discussed and experience of firmers called out. Also in consequence of the e-insti-tutes many will underly a experiments at di-the tarming on munity he benefited by te-ing induced to nake practical test.

THE SOUTH WITHOUT STATESMEY

The s with has no state men to day She is represented only by a puck of imbilious politicisms whose only aim is to be re elected. They know that they can be ind finitely reelected just so long us they can effectively tituli ite ai d : nger the sentiment i a remain e of their half barbaria and altogether allier as constituents in the border states like Virgi it Mis ouri Kentucky Deliware and Marshari where the number of thinking Mixing tween the number of thinking folk a slowly but steadily mult plying the gip of the southern following adually relies to but a what we might call for laked a bester term the hopeless South every Southern min of brains is term that by the ignorance and rassonate projudes of the reale to take his appeal to the easy and stiple trainmal of Pulip drut, because he knows that is a fir ery to the day when there will be a court presided ov r by Philip

wheld to give the Fermers Institute a good dinner but we were afra d they would think we were too forward in so do ng
Our granke has other of territses a view Wishington county farmers are the kind that make money by farming an i they have means It is talked of that we are to have a good flour ng mill of our own soon and such by high with a little butter memories of the ware to have a good flour ng mill of our own soon and such constitute that the most of our rand our vegetables. This grings is entired our vegetables and our vegetables. This grings is entired our vegetables and our vegetables are vegetables and our vegetables. This grings is entired our vegetables and our vegetables are vegetables and our vegetables are vegetables. It may take felty years to educate the mass or the Southern people to an intelligent com-prehension of the facts that a bolid South a terribic political bunder at may take I its years to evolve from the crowd of bright an bit o i Southern politicians a statesmu an bit of Southern ponucians a Soutestan-of the breadth humanity and sympathetic quality of Henry Clay West V rguna may quality of Henry (ia) West V recome over to the requisition party Virginia may come Deliware has really come atready Maryland will come as soon as the whe Baltimore Fammany ring" is broken, Missouriwill not remain forever in Fgypli in darkness North Carolina may vet get re ligion but outside of these states the ignorance the passion the prejudice of the illiterate South 1s likely to keep it as solid for the democracy as New York city. In a the democracy as New York city. In a broad sense the quarrel butween the de nourses and is opposition in America has niways been a battle between ig mrance and intelligence between lawlessness and law between order and disorder between peace and anarchy between slavery and freedom, between har are m and humanery between memperance and restraint between improvements and restraint between improvements. morality and morality between in-and honesty. The remonstrance of pournals like the New York Sun will do little good Fre leapard cannot change his spots the consumptive cannot eliminate the tubercle agonized vetim of cancer cannot wrest its stinging scorpion from his sosom. For this reason it is safe to say the the democ race will not reform because in order to be recast and reformed it must begin at the south which is as incapable of reform at

Conservative Mormons complain that con verts are being made too fast and allege that the character of the women brought into the fold is not livey as such as 19 conducted to the happiness of Mormon Louseholds. Some of them have even been known to display temper toward their here icid a thing the three true domestic felicity in the house of the Latter Day with This 19 show that they understand the work can the house of the Latter Day Sent. This is generally find land to rent. Those who have undeed menacing to the peace of the polyga moderate means can usually do well by present the board. Just what is going to be mous his band. Just what is going to be done about it is not apparent but it is clear that if the institution is to be preserved. measures must be taken to compal Mormon wives to confine their outbursts of temper to each other or if they must have and spank the children of the co wires of their lords The field seems o be fertile enough in material for domestic storms

horse that wins the Derby

THE LONDON "TIMES."

Some Account of the Great Paper and Its Recent Defeat.

Herotofore the T m s Was the Most Sucressfully Manag.d Newspaper a the Word-John Walter and Other Eminent Men on the Pap r

The Decline and Tall of the London Times and not fill so many volumes a did that of the Roman Prapire but 1 1 cart unit one of the mon entrus events of these times Momer for a 11 not ourmons because the Intes is not only the greatest o mail in the world mest cautious in taking up anything sensation if and ministed by men of the videst experience but it has been a nost uniformly success ul and is in a year ident that with the exiting covernment, but its man-

sensational and managed by men of the widestexperance but it his item a now uniformly success all and is in a winderfield with the eximage poterminent with the white the mage rather of the mage it in the state of the mage it in the state of the failed may like the potential of the test of the manager in the manager is the state of the earlier of without still centered it in mentage it is the partial of the exist of th

There are pretentions governments which require far less attention to detail in their administration than does the Times and administration than does the Times and many principalities in Furope with smaller moon or When there was a string duty on advertisements the Inversion one very (1820) paid the government 170 (180 (1820) 000 nearly) on this item a one at I when a penny string was required on each paper sold the dues from the Ioms were rated in on, the large items in the British excluding if the large tixes were now in force the II were only pay \$2,00,000 and rate if they were wheth about the distance of the lowest daily sales for many years. It we been 70,000 and rating the advertisements at the eyer durly sales for many terry. It we been 70 000 and rating the anvertisements at the ever a,e the income of the Imas falls but a triff, below 50 000 500 at year. And yet the head of this great establishment announces that they must pass the rext divident—there are no profits for this quarker. And it is not denied that the attacks upon Paraella ad the home rulers with the resulting trails craftle can be of this year goingstor. Verly there has been a decline it not a pretty hard fall.

the bottom's being controlled to the freeholder of the state of the first bard fail.

The Irac hild in, among the mode in terestin, in I pidon and the few i owed to inspect the interior (a privilege only granted to the highly avored) speak of it as one of twonders of the world I from partie to sub-cellar everything is run with remarkable quiet and order. There is no longing, foud talking of infarity no upparent lastic or confusion. The compastions are as grave over their work as fort chancellors. Says over their work as fort chancellors. Says over their work as fort chancellors in says over their work as fort chancellors in the noise that the editorial rooms seem like the studios of quiet scholars and artists. There is an army of employes but it is a highly disciplined army, even the messenger boys show in their quiet gravity that they realize what a solemn and important thing it is to work for the london Thace.—The Thunderer's as the British cell if the Jupiter of the Prebs' as all journalists confess it to be. Most of this wonderful discipline, ter of the Frebs. The all journalists confess it to be Most of this wonderful discipline, united with rapid dispatch is due to Mr. John C. Vacdonald prise it minager of the office. And Everything used in the vist estatishment except the paper is made on the capet.

talishment except the paper is made on the spot

The top floor is devoted to the bound fries of the paper and the regular appliances for easily consulting them. On the next floor are dining rooms and kitchens for the different classics engaged on the paper the meats are roasted before open fire. Also many other rooms for 'in vig and leisure' as it sometimes happens that no one is allowed to have the building between the time of onening and the final shipment of the papers \ix ix below are the broad and high commos nig rooms lighted with electric lamps telegraphic and telephonic offices the dispatches being in many cases set up direct from the graphic and telephonic offices the dispatches being in many cases set up direct from the sip asit unrolls. One room is devoted to the special wire from Paris. There are telephonic connections with both houses of par liament and other public institutions the reporter who has taken his report down in shorthand talks it through the wondrous wire to the transmitting man in the office who takes it down in turn in shorthand and dictates it to the compositors one transmit ter increading another so rapidly that the speech is in type in a few minutes after it is uttered in parliament. The typesetting machines pinde and used in the typesetting machines in parliament. The typesetting machines in parliament. The typesetting machines in parliament. And finally in the lower rooms are the electrotyping and many other departments and at the base of all the grand machines for putting the thought and news on paper.

Mr John Walter is usually spoken of as

Mr John Walter is usually spoken of as 'proprietor of the London It as' and so that phrase is a ed here but he is merely 'proprietor of the London Lew' and so that phruse is a deher, but he is merely principal proprietor as there is a stock company Muny employes of the Times both regular and occasional have risen to fame such as W Vernon Harcourt John Oxen for M Blowlix the renowned in mager of the Paris tureau of correspondence. It mund Yates John Delane Henry La bourbere, and the renowned Dr William H Lussell whose reports from the United Vates in 18b1 gave sensitive Americans so much occasion for anger, which has since given place to good humored laughter. Dr Russell himself very pleasantly says that no country with the complex system of govern ment, and extremely heterogeneous society (and the United States certainly has both), can be fully understood til the observer has lived in it long enough to become saturated with the national feeling. It is needless to detail the recent troubles of the Inner Suffice it to state that in 1887 the fournal began publishing a series of increal stacks on the Irish leaders charging that they were secretly inclume violence while pretending to engage in strictly constitutional reforms. This was followed by an other series headed. Parnellism and Crime, and when the Parnellism called for proof the Times gave fac sluttless of letters alleged to be those of Mr Parnell in which assassination was defended. The sensation created can scarcely be described, it extended to every part of the English speaking world.

Air Bail the sculptor, has completed a statue in bronze of P. T. Barnum which is to be erected after the great shown in steath. The statue represents Mr. Barnum sitting in a custioned clear with a memorandum book in his left hand and a penci in his right. Its hight in a string point is eight feet. Its weight is 5000 pounds, and the cost was \$20,000.

The report that the Scotch cutt in Thist'e is to come over to this side of the occasi and to come over to this side of the occur and make another effort to cirry off the America's cup is the late to theme of dicus for in acting circles. What makes it jeculiarly in eresting is that the better boot is to be fitted with a certeriour which in the days when the Yankee Volunteer in may from all contestants on the blue waters of New York buy these same gentlemen signify to scritted as a dishonest and hameless Yan bee contributed.

Says the Boston Herall. The term of I ran him has given Robert I have a mother divertion in the him of the into be in its patilis. Bhrary I and in wis long the scene of the preadment of the trope in its patilis. Bhrary I and in wis long the scene of the preadment of P Nathan el Lamons, the great orthodox divine of the early years of the century in the eastern path of the state. Horsee, Main was born there also. The Universalits have invaded the town since the death of Dr I minon and established a seminary at the cost of several hundred thousand dollars. Both sides in theology, it is to be persurient are well represented therefore in Frankin and neither is likely to be proud of this exhibition of that rowness.

Rev Theodore L Cuyler visoron ly ob-Rev Theodore L Cuyler visoron h objects to the avertion that forty years is the ministerial dead line." Mr byurgeon he says is fifty five. Dr Joseph Paker fitty and Newman Hall seven y two. Dr. I are lifty eight. Dr Borrs sixty eight, Dr John Hall and Dr William M Taylor each in his sixtleth year. Dr Alexander Macharen sixty three. Dr. I almage fifty six. Dr. Philaps Brooks fity four. Dr. Kittedge fit y tye and Mr Moody fifty two. We have says Mr Cuyler few enough ministers of the gospel in our country already but if this gospel in our country libreauy but if the inexorable dead line of forty is gong to shelve a large portion of those how in the field we shall soon have a famine of the gospel that will make a jubiled in bell

THE METHOD OF THE DENAGOGUE

Albany (\(\frac{1}{1}\) Express
One of the favorite tricks of the demagagine is to condemn the inflicatore. The dense is to condome the inflictionare. The demandiation appeals to the cheap and selfish projudice of the ignorant. As for the Lx press it is content to treat the millionaire as fairly as any other citizen. If he secures his money housestly he is entitled to recognition as a man of some special ability, who has ably used the opportunities presented to him. If he secures his money dishonerally he merits behild. A case in point is that of Levi P. Morton who is being subjected to adverse criticism daily on the score of his wealth.

weath

No man, however poor need feel ashamed of Vice President Levi P Morton The Light honor to which he has attuned is a te it montal to the opportunity of the poor man in this country. Levi I Morton was not born with a silver apoon in his mouth. The poverty stricken clerk of a country store lift years ago, he has become a mp it millionaire of to-cay by exercising thrift and enterprise. In commercial and banking pursuits of a legitimate character he are in uisted his fortune and it is creditable to lice man that no one has ever charged him with making a penny dishone thy. Wealth has not made him proud and arrogant he is

ulated his fortune and it is creditable to line man that no one has ever charged him with making a penny dishone thy Wealth has not make penny dishone thy Wealth has not make him proud and arrogant he is modest and liberal in contributing from his fortune for charitable or worthy objects—his contribution of a portion of the ship field of provisions for starving Ireland in 1880 be ng a typical instance.

Mr Morton's fortune and the method by which it was acquired tetify to the min's ability and integrity. His business will end end a split in and integrity. His business will end end to the min's ability and integrity. His business will end with a some of the leading bankers of this continent he has closely observed the workings of his incall and economic has in he markets of the world. He proved himself a most useful minister to France in attent ing to the interests of the United States. He is littled for the vice presidency and we issued to the world have been a sufficient of the transfer of the United States. He is littled for the vice presidency and we issued to the world have been to the minimum of the president otherwise he is.

Mr Morton contributed interally towards the success of the republican ticket last fall not moreso however, than did President Cleveland the members of his cabinet, Callym B State William II Barnum Artuar P Gorman and other wealthy democrats for the success of their ticket.

The brutanty with which the New York Borld has been pursuing levy P Morton for several days is repulsive to every fair min led man.

cannot doubt that there is a tendency to deterioration when he considers the univorteen the house of H upshure and remembers that the king of B is aria is dis n mad house, that the pre cut can gero of Germany is B vicin to tuberen osis and that his tother's dress wis dat in part to the pop on of the univoidation part to the pop on of the univoidation part to the pop on of the univoidation of the Hohenzo lern. Sich and imbeoils princes have for centurar less writes to the dinger that he in the main of course. A careful observer of snime will note the same tendency to degenerary. The len and honess at the 'oo have reposition." one of the internot chambers and our ones when in one of the internot chambers and our ones were quelt it is true I heard some thing which sourced like a boat approach in from ano her chamber—the stady stroke of the oar was very accurately initiated and having heard of the ghostly inhabitant I thought we might surely meet him—but closer investigation proved the sor idy to have come from regular roof drippings which I lined with my watch and found not to vary more than one second in two minutes. We had no difficulty in picking hip our lights on our way book to the initial chamber, and I found on our return to the entrance that it was 6 I. M. and we had been in the cayothrechours. It required some time to well accustom our eyes to divigible, and at 8.30 we arrived at the sloop for supper and hed. Just invide and to the right of the entrance, over some dry land. I saw many vory large bats, which flew round and round our forch as we went on, but described us when we pissed into the side chambers. In a bitain river empities only vix miles south of the flow of Belize. Along its banks were scattered a few Indian huts and yil legs whose inhabitants have mide clearings to grow corn. The Indians of Belize different those of Guatemala in the fact that the principal portion of their food is inch. Children in the exterior. As a dick shooting ground the foully place that can equal the lugious of Belize at the wild portions of the great colorado river above lort Yuma. All will note the same tendency to degeneral. The len and hones at the Zoo have repaid to be not cleft tongued outs. Not one of their numerous progen; have been example from the defect, and I feel confident that the parent hones are brother and sider, and that in the state case of the invisibly respected of spring.

Dr. Chapin superintendent of Kirkbride ins ne asylims, betteves that actual invanty v. v. arely to low- is an effect of marriage of rear kin. Innocy and this cellity, he say, ir in this result and the patient may be had not even the manual paroxysms, but he has never known access of actual insulty that was directly tracerible to this causa.

There is a widespread idea that com-There is a widespread been that common produce either defective of spring or none at it. When a marriage between course is spot en of, sterility or a definite thicker or deformed progent is product, and examples are always at hard to city in support of the prophecy. Boes the opinion rest up on positive and well authorite ded facts or is it erroneous? This is a question that was examined a few years again and the support of the subject came to the conclusion that in the present state of science, there is nothing to ju this the common prejudice. that in the prescot state of science, there is nothing to ju this the common prejude that exists a must the marriage of near the More recently the subject has been further examined by Mr. A. H. Huth, who has just published an exhaustive work upon it, is which he are ves at the same conclusions had Mr. Darwin did. Mr. Huth thinks that consequently of steel plays no particular roles the union of individuals of the same such. In the descendants it increases the tendencies common to the two progenitors. We reason of their relationship, the closer that and the closer the relationship of the news. In the descendants it increases the tenderics common to the two progenitors. It reason of their relationship, the closer this and the clover the relationship, the closer this and the clover the relationship, the closer this and the clover the relationship of the same tors the gire to it in the tendency of the descendants to exhibit the same dispositions. If these are good consanguineous may will be advant upons, in that they will forth and intensity them. If, on the contrart, they are bid such unions should be saying they are bid such unions should be saying they are to give a the case is identical where he is question of unrelated persons. No reason able person would urge two neurophitic individuals of different family to unite, because he knows that the neurosis has every change to become intense in the descendants. On the contrary a union between consanguations individual equally healthy and wishored ought to be encouraged.

What may be urged against marriage on our individual equally healthy and wishored ought to be encouraged.

What may be urged against marriage on ear him is the facility with which unlawable tendencies in which is the facility with which unlawable tendencies are really be advanted. But this admitted and explained, consanguality of itself presents no inconvenience, especially lates and the universe can really be advanted. But existing laws upon marriage, is the degrees consanguantly between individuals capable of uniting legitimately. Upon the whole consanguality accumulates and the universe the ones that the solution of the universe of the existing laws upon marriage, is the degree. But and the universe of ear kin should be avoided if good it may be fayored. But another universe in often morriage is the theory of the universe of the constitution of the one of the one of the o

The climate is a mean let rebuser. The climate is a mean let rebuser. The climate is a mean let rebuser. The climate is an extended and the feet and the control of the Northean Problems. The land is unasily well and watered There are good sehrcharches abound. The soil is wonderful ulive and grows early vegrables and the lordland market. It is great for my roducer fruit in wonderful luxuriance thing grows here that grows anywhere to the test in the very satubrous. It can is, ho test is Southern Oregon west of the Carcader is not unrecessed for all the qualities asset in the property of the control of the contr

A writer in the Independent at H by many men imagine they are not doing a wrong when they hall the male growe at the female to go it alone. The female however will not breed it the man it do and the law is specified on the subject. The laws are merely common sense applied game preservation. The law should be and the law breaker punished. The preof will animals is necessary for many refer as game is concerned, but all the where using their guns to exterminate et a randgame birds out of assion. Those wi

Democratic journals publish and of tions for political purposes in the las years," said to have been made by Nice Morton, amounting to several militons specific uses. Any person with admiring bension should know that all such "size fairs. No one of sense will suppose the sense has been tablished records by much false. No one of sense will suppose the good solution goes about selling people how mur for any object. He is a dignification that the control of the selling people how much and the selling people than he was some actual offine, prohibited and play he much mone for politica, and no hear this appropriate to this day has control money for politica, and no hear that a percention of journalism to charges and no mean of good sense at ain such a story for a moment. The last newspapers who retail such stuff schandious imatter to publish and purefulnes of hostor of truth in the designest, as false as it is mailictous.

It is the regular thing for the democracy is now playing a losing game it roughout is now playing a losing game it roughout West—to make the pretense that its men a papers are legal to the people and "form monopoints. For example, a Seattle to this political faith boils down its wash lohn B. Alen into a paragraph, hat asset a "mere tool of corporations." Of course a "mere tool of corporations of the other porations have no use for a man who is in minority and railroad men are like other man it meets a position of the country of the country of the country of the country of the property of the country of the seat of the seat of the country of the seat of the seat of the groundlings, who have votes and it tell them a man is "fought up." It is hoped to tickle of the groundlings, who have votes and it tell them a man is "fought up " and "sand a "tool of corporations." Meant ma as the democratican be as intimuste as the It is the regular thing for the democrac

# ABSOLUTELY PURE.

For quick raising the Royal Baking Powder is superior to all other leavening agents It is absolutely pure and wholesome and of the highest leavening power 1. is always uniform in strength and quality and never fails to make hight, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, e.c. raised with Reval Baking Powder may be eaten but without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration

Prof H A Hott, U S Go erement Chemist, after examine, officially the principal baking powders of the country reported

' The Royal Baking Powder is absolutely pure for I have so found it in many I sis mode both for that company and the United States Government. "Because of the faculties that company have for a staining perfect's pure cream

of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of to preparation, the Royal Baking Powder is endoultelly the purest and most rehable baking powder offered to the public. "DR. HENRY A. MOTT, Pu D.
